DETAILED ACTION

Allowable Subject Matter

1. Claims 2-3 and 6-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 7 is directed to a log transmission device that transmits a log to a management server at every preset log transmission timing. Claim 7 recites the uniquely distinct features of "wherein said log storage control module determines whether an expected end time of a print job estimated according to a paper size and a number of pages to be printed in the print job comes to or after the next log transmission timing, in order to determine whether the next job transmission timing comes before completion of the print job". The closest prior art Motoyama Tetsuro (JP 2001-243091) teaches a service center that can detect a warning message or an error message from device software which controls a business machine, when analyzing data in the log, either singularly or in combination with other cited references fails to anticipate or render the above underlined limitations obvious (when used with all the claimed limitations).

Claim 11 is directed to a log transmission device that transmits a log to a management server at every preset log transmission timing. Claim 7 recites the uniquely distinct features of "wherein said log transmission control module sends the log to a management server, which evaluates validity of a contract made by a dealer with a registered user to permit the use of multiple apparatuses with said log transmission

device mounted thereon for a predetermined time period at a flat rate". The closest prior art Motoyama Tetsuro (JP 2001-243091) teaches a service center that can detect a warning message or an error message from device software which controls a business machine, when analyzing data in the log, either singularly or in combination with other cited references fails to anticipate or render the above underlined limitations obvious (when used with all the claimed limitations).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
